ONE DAY SPECIALIZED TRAINING ON
ASSESSING INSTITUTIONAL PERFORMANCE OF
MICROFINANCE INDUSTRY

20 FEBRUARY 2018

Introduction

Microfinance is generally believed as an effective instrument against poverty and important policy intervention to promote gender mainstreaming. Conceptualization of poverty as restricted access to financial capital intensifies the importance of microfinance. Assessment of microfinance industry is imperative in many ways. Institutional performance of MFIs has been remained of central importance to evaluate institutional productivity and 'monitor and compare' its performance with other similar institutions for optimal policy agenda. Data Envelopment Analysis (DEA) is widely emerging as a performance measurement technique which can be used for evaluating the relative efficiency of decision-making units (DMU's). It is getting popularity and widely used as an organizational performance evaluation technique in management, finance and economics. Some important areas of application of DEA are Banking Industry, Insurance Industry and Microfinance Institutions etc. This method is prepared over conventional methods of performance in multiple ways.

Objectives of the Training

- To decompose the performance of Microfinance institutions into commercial and social goals based on standardized indicators.
- To dig out reasons why a microfinance institution within an industry is efficient or inefficient?
- To identify tracks of inefficiencies of microfinance institutions.
- To deduce important policy implications for MFIs which are lagging behind their counter parts and peers?

Who Should Attend?

Academicians, Higher studies students, practitioners, microfinance bankers, NGOs, microfinance raters' institutions, Islamic microfinance institutions.

Registration & Cost

Please email your interest to ceif@imsiences.edu.pk.
Rs. 10,000/- for covering the trainig, reading and refreshments.
Partial Scholarships are also available.

Course Trainer

Dr. Zahoor Khan (certified master trainer of Business edge IFC, a World Bank group) will be a facilitator of this course. Dr. Khan has completed his PhD from Universities Sains Malaysia in 2014. He has a vast experience and has presented his scholarly work at different international forums of high reputation across Malaysia, Indonesia, Qatar, Iran, United Kingdom, Thailand and Denmark. He has specialization in institutional performance of Microfinance institutions.

Content of the Training

- Understating the Philosophy of Microfinance
- Paradigm Shift in Microfinance Industry
- Sources of Microfinance data: Local and Global
- Ways to measure the performance of Microfinance Institutions (MFIs)
- Pure, technical, overall efficiency of MFIs
- Modeling efficiencies via EMS
- Modeling efficiencies of MFIs via excel
- Hand on exercise based on real dataset

Benefits of the Training

- The participants will be able to know various concepts of efficiencies such as overall efficiency, pure technical efficiency, scale efficiency, relative efficiency, economic efficiency etc.
- The participant will be able to compare and rank a microfinance institution performance with other similar microfinance institution and peers.
- The participants will have hand on practice on special software used for efficiency assessment.
- The participant will be able to dig out what are the sources of inefficiencies of MFIs and how it can be cured?

Venue

Bank Alfalah & CEIF IMSciences
Incubation Centre in Islamic Finance

Bank Alfalah Awan arcade, I-B, Jinnah Avenue,
Blue Area, Islamabad
