

Lincoln Corner upgraded with Makerspace

Lincoln Corner Peshawar has recently been upgraded with a makerspace. Joint Director IMSciences, Dr. Usman Ghani inaugurated the makerspace at the corner, which also includes a 3D printer besides latest technology tools and learning equipment for students. Mr. Omer Samin, IT faculty and advisor of IMCIS, installed the 3D printer and gave a demonstration to students and faculty members and made models by using it.

Dr. Usman appreciated the efforts of our partners, U.S. Consulate General, for providing the makerspace section at IMSciences. Immense gratitude and excitement was conveyed by the students in terms of initiating their projects at in makerspaces.
