

Orientation Ceremony Fall 2019 for Masters Students

An orientation ceremony for the fresh batches of different Masters Programs at IMSciences was held at IMSciences on Wednesday. Over 200 students were given a warm welcome to their new home, IMSciences by the Director IMSciences, Dr. Muhammad Mohsin Khan. Students were admitted in different Masters Programs. The Director in his welcome address informed the students about the immense importance of higher studies and how the admitted students were fortunate to begin their journey of higher studies as they represented only a small fraction of the youth in Pakistan who will gain greater knowledge through their studies as opposed to millions of others who out of destitution or other reasons cannot benefit from higher studies.
