

IMSciences – Pet Show

The Art and Culture Society of IMSciences arranged a pet show at the Institute on 6th March, 2019. The students were given an opportunity to show off their pets. Director IMSciences, Dr. Muhammad Mohsin Khan was the chief guest and Dr. Khalid of the Government Veterinary Department was the judge of the event. The event was attended by the students of IMSciences.

The event exhibited a versatile variety of unique breeds of dogs such as the Alaskan husky, Rottweiler, Chihuahua and a black Russian terrier. Almost all the cats were Persian, but varied in breeds. The animals were judged and were given awards on the basis of their breed, training and obedience.

Among the dogs, a German Sheppard secured 1st position whereas a pug and a Rottweiler secured 2nd and 3rd positions respectively. Among the cats, a Persian cat and a Persian punch face cat secured 1st and 2nd positions respectively. And among these large sized animals, a tiny turtle was given an honorable award for being part of the event.

The pet show was full of fun activities for the owners and their pets alike. The attendees were witness to many affectionate moments between the pets and their owners that resulted in laughs and memorable moments for them.
