

# Workshop on Clean and Green Pakistan

The Fredrich Naumann Foundation for Freedom (FNF) arranged a workshop on “Clean and Green Pakistan” at IMSciences, Peshawar as part of developing linkages with universities for a sustainable development. FNF is a German non-profit organization which has been working together with Pakistani partner organizations to bring about a positive impact on Pakistan.

The FNF team was warmly welcomed by Joint Director IMSciences, Dr. Usman Ghani in the Lincoln Corner. After the welcome remarks by Dr. Ghani, the FNF team introduced the participants to current global concerns. Environmental issues and climate change were discussed and the social impact they will have on the world over. The FNF team specifically targeted Peshawar, Pakistan in terms of the impact of climate change.

Later on, a group activity took place whereby the participants brainstormed over how we can achieve sustainable development in the face of negative climate change. A certificate distribution ceremony took place at the end of the workshop in which all participants were awarded with certificates for their active participation.
