Institute of Management Sciences, Peshawar Achieves Highest Accreditation for BBA & MBA Programs

Peshawar, Pakistan – [November 6, 2023] – The Institute of Management Sciences, Peshawar (IMSciences) has been granted the highest level of accreditation, 'W' category, by the National Business Education Accreditation Council (NBEAC) for its BBA and MBA programs. This prestigious recognition places IMSciences among the top nine business schools in Pakistan and the only one from Khyber Pakhtunkhwa to achieve this distinction.

The NBEAC is the sole authorized body under the umbrella of the Higher Education Commission (HEC) in Pakistan responsible for accrediting business schools based on international standards. The 'W' category accreditation is the highest level of recognition and signifies that IMSciences has met the most stringent criteria in terms of faculty quality, curriculum rigor, student learning outcomes, and overall institutional infrastructure.

Prof. Dr. Usman Ghani, Director of IMSciences said, "this accreditation is a testament to the exceptional quality of our BBA and MBA programs and the unwavering commitment of our faculty and staff to providing our students with a world-class education. We are incredibly proud to be recognized as one of the leading business schools in Pakistan and the only one from Khyber Pakhtunkhwa to achieve this distinction."

IMSciences is a leading business school in Pakistan, offering a comprehensive range of undergraduate and graduate programs in business administration. The school is known for its innovative curriculum, experienced faculty, and strong industry linkages. IMSciences is committed to providing students with the knowledge, skills, and values necessary to succeed in the ever-changing global business landscape.

The NBEAC accreditation will further enhance the reputation of IMSciences and attract top students from across Pakistan. It will also open doors for international collaborations and partnerships, providing students with greater opportunities for global exposure and career advancement.
