IMSciences and FES Sign MoU to Expand Educational Opportunities

FES Higher Education Consultants and IMSciences have signed an MoU to broaden educational horizons for students. As part of this MoU, FES will fully fund the undergraduate program for two students of IMSciences and provide them with summer internships. Plus, a new 3+1 program will allow IMSciences students to finish their degree in the UK, gaining valuable international experience. With free counseling, visa support, and IELTS prep from FES, this partnership is set to empower students for a global future!
