

Press Release

[Swabi and Jamrud, February 17th, 2024] – WeCare IMSciences, embarked on a transformative journey by spearheading green initiatives in various educational institutions across Swabi and Jamrud. In a series of impactful events, WeCare has planted a diverse array of fruit plants, fostering a commitment to a greener, healthier future. Commencing the eco-conscious efforts, WeCare IMSciences planted 20 Lemons, 20 Pears, and 20 Guavas at the **“Govt. Primary School for Girls and Boys” in Kunda, Swabi**. This marks a crucial step towards empowering communities and cultivating a sustainable tomorrow.

Building on this momentum, WeCare IMSciences forged a fruitful partnership with **“Glorious Schools and Colleges” in Bamkhel, Swabi**. Collaborating with students and faculty, the organization planted 100 diverse fruit plants, laying the foundation for a vibrant and sustainable future for all.

Continuing its commitment to environmental stewardship and education, WeCare IMSciences extended its green footprint to **“Govt. Higher Secondary School, Jamrud.”** Here, WeCare not only planted 45 fruit plants but also conducted an awareness campaign alongside students and dedicated faculty. This dual approach aims to nurture both the environment and knowledge, laying the groundwork for a truly sustainable future.

Together, these initiatives underscore **WeCare IMSciences’** dedication to fostering environmental consciousness and empowering communities through education. The WeCare IMSciences remains steadfast in its mission to create a greener, healthier world for generations to come.
