POST-EVENT BRIEF REPORT

Live Broadcast Viewing: Pakistan's First Astronaut Mission to Space

Date: 25 November 2026
Venue: Main Lobby, IMSciences, Peshawar
Activity: Live Broadcast Viewing on PTV

The Institute of Management Sciences (IMSciences), Peshawar, organised a special live broadcast viewing session on 25 November 2026, enabling students to witness a historic milestone in Pakistan's space exploration journey.

Students gathered in the Main Lobby to watch the live broadcast on Pakistan Television (PTV), featuring the historic occasion of Pakistan's first astronaut heading to space. The broadcast was displayed on a large screen, allowing students to follow the proceedings together and share in the excitement of this significant national achievement.

The activity generated enthusiasm and curiosity among students, highlighting the importance of scientific advancement, technological innovation, research, and exploration. It also provided an opportunity to inspire young minds to take an interest in science, space technology, and Pakistan's contributions to emerging fields.

The initiative reflected IMSciences' commitment to keeping students informed about important national developments while fostering scientific awareness, patriotism, and a spirit of innovation among the younger generation.
