

Social Impact of Financial Aid / Scholarships (Success Stories and Outreach & Communication Activities:

Mr. Muhammad Idrees, MBA (2006-2008)
HEC USAID Merit and Need Based Merit Scholarship
Youngest Regional Head - Consumer and Retail Banking Group,
Allied Bank Limited, Malakand Division

I belong to Lush green mountainous valley of Swat. I studied in Government Schools. In between numerous family hardships and financial challenges, I was raised, encouraged and supported by my dear mother, to get high quality education. After my college life and completing BSc, I got admission at IMSciences to study Master of Business Administration; it was all possible because of my beloved mother's savings of many years. During my studies I have gone through a lot of hard times and struggles but I never discouraged and always faced the challenges. During my MBA, apart from my studies I also used to work in the morning and in evening I would attend my MBA classes regularly. I badly needed financial assistance, and then I applied for USAID Merit Need Based Merit Scholarships which were advertised at the Institute. I am thankful to USAID for awarding fully funded Need and Merit Based Scholarship during my studies. I am thankful to IMSciences and Higher Education Commission of Pakistan for providing me such opportunity to excel in my career and life.

*After completing my MBA, I started my first job in Standard Chartered Bank and with various and gain banking experience by working with some eminent banks of the regions. **When I joined Allied Bank Limited, as a Branch Manager, I achieved to record revenue in very short period of time, I met significant milestones and broke many records in my banking career, and as a result I was promoted as Regional Head of Kohat Region. I must share that I became the youngest Regional Head in the history of Allied Bank Limited.** I would like to share with my youngsters that never settle for less than the best, and IMSciences is one of the best Institutes not only in the region but in the whole country. Today I am writing these few lines for you regarding my success just because of all the support and guidance I got during my studies at the Institute. I wish the same success to all of you and wish you best of luck in your future. Furthermore, I am also thankful to HEC and USAID who extended its helping hand to me during education and most importantly I thank my mother for her prayers, efforts and sacrifices.*

*It was one fine evening in Dec 2021 when my brother handed me a letter with my name on it. When I opened it, it was a letter from Khyber Pakhtunkhwa Public Service Commission (KPPSC) which says that you are selected for the post of Assistant Sub Inspector in the Police Department of KP that was a moment full of gratitude. You know when there is a will, there is always a way. I officially joined the Police Department on 23rd May 2022, when I came to know that I am appointed as the **first female Probationer Assistant Sub Inspector of Mardan** which is a great honor in itself. Both my parents played huge roles in my success but the role my mother played in my life and success, the way she stood like an iron lady in all my hardships is admirable and irreplaceable. In the end, I Salute to IMSciences, USAID and Higher Education Commission for their wonderful support, Guidance and Compassion.*

Ms. Mahnoor Riaz, BBA (2015-2019)
HEC USAID Merit and Need Based Merit Scholarship Holder
Assistant Sub Inspector (ASI)
(First Female Sub Inspector from Mardan District)
Khyber Pakhtunkhwa Police

“My dreams for higher education were surely vague and challenging. But to accomplish great things we can only act when we have dreams. To enable me for making progress on ambition, the communication and outreach of IMSciences Peshawar, Higher Education Commission of Pakistan and USAID brought me a life time opportunity at my doorstep in Prang Village of District Charsadda.

After a tough competition I was selected for fully funded USAID Need Based Merit Scholarship Program at IMSciences Peshawar, and successfully completed my MBA (Finance) with distinctive grades. I am proudly sharing that I am serving NADRA Pakistan as Assistant Director. Dear youngsters, I still have a dream, I have a dream that one day my country will be able to educate each and every deserving and talented student to become a leading nation in higher education. I will contribute to this cause, Will you?”
